# SEED LIBRARY

FREE SEEDS!

# HOW IT WORKS!

## STEPS FOR GETTING SEEDS

1. Find the seed you are interested in using. They are listed alphabetically by vegetable, herb, and flower
2. Take the Seed Library envelope out of the drawer and take it to the table
3. Get a small brown “coin” envelope from the labeled drawer in the card catalog
4. Write on the coin envelope the name and growing instructions for the seed
5. Place the desired amount of seed from the Seed Library envelope into the small coin envelope
6. Replace the Seed Library envelope back where you found it (they are alphabetized)
7. Do this for all the seeds you are interested in taking, using separate coin envelopes for each
8. Go home and plant them !
9. We ask that your don't exceed 5 different seed types at a time.
10. Seed starters and labeling sticks available while supplies last! Please do not exceed five of each.

**If you would like to donate seeds to help our library grow, please drop off labeled seeds with simple growing instructions to the main desk. All seeds should be placed in an envelope. Thank you!**

Post pictures of your beautiful gardens online and tag [#torringtonlibrary](#) for everyone to enjoy.
